Relays: On the next page I have posted the relays. If you are in two relays you may only swim 2 individual events. If you are in one relay, then, you may swim 3.

*I went with the fastest relays according to season best times. Relay splits do not count unless it was a lead off swim.

*If I felt that Individual performances would be better for us as a team at District or the Area meet I put them in 3 individual events and one relay, thereby, having the next fastest swimmers swim the other relay. We are only allowed 1 relay entry per event.

*There are some people swimming up. Check all relays.
